

1. Aluminum sheets & strips and equipment

A complete industrial chain of aluminum casting and rolling—aluminum sheets and strips—coating sheets has been formed ,which own an annual capacity of 45 thousand tons of aluminum and aluminum casting and rolling strip, 30 thousand tons of high-precision aluminum and alloy sheet and strips.The main devices are below:

※FATA-HUNTER Super type caster from Italia

※1850mm 4 high non-reversing aluminum strip and cold rolling mill
